OCTAVE ETUDE

Newest and Best Methods for Piano and Reed Organ.

BRAINARD'S

New Method New Method

PIANO-FORTE.

BY GEORGE W. BRAINARD

This valuable new work is fast superseding all other Methods for the Plano-forte, and is pronounced by every teacher and musician that has thus for examined it.

FAR IN ADVANCE OF ALL OTHERS.

It is the most complete, thorough, practical and progressive Piano-forte Jastruction Book ever presented to the American public. No teacher, after

Brainard's New Method for the Piano-forte

a fair trial will use any other book. The work also contains Karl Mers's valuable and useful

"MUSICAL HINTS FOR THE MILLION,"

which are alone worth the price of the book to any music teacher or scholar. Hundreds of testimonials in its favor have already been received from leading teachers throughout the country, a few of which are given below:

LANCASTER, WIS., Aug. 3, 1879.

LANCASTER, Wis., Aug. 3, 1872.

MESSES, BRAINARD'S SONS:—I have just given Brainard's New Method for the Plane forte a careful examination. I have been quite anxious to see the proof of your remark to me some time since—"that your New Method would be the best of the kind." This I thought was saying a great deal—but by carefully examining page after page, I soon found that your statement was, in all you had prumised, confirmed. I must say without hesitation, of all the numerous plane instructors published. I have seen none presented in a form so methodical and elear. It cannot fail to become a favorite with teacher and pupil, and will undoubtedly soon be properly appreciated and universally adopted. I for one at once will bring it into use.

AUGUST MICHARLIS. Teacher of Music.

AUGUST MICHARLIS. Teacher of Music.

MESSES, BRAINARD:.—Having examined Brainard's New Method for the Plano forte, I take pleasure in saying that in many respects it is superior to any other work of the kind gotten up in this country.

J. C. Cook, Teacher of Plano,

LOGANSPORT, IND., July 31, 1871.

MESSES. S. BRAINARD'S SONS:—I have given Brainard's New Method for the Plano forte a careful examination and have but one conviotion—that it is the instruction book of the day. Everything is so new in comparison with so many other books in the market. Allow me to offer you my sincere congratulations. Hoping the demand for your "New Method" may cause you to print an edition every month, I am Very truly yours.

ADDIE S. WEED, Music Teacher.

CLEVELAND, O., Aug. 15, 1872.

MESSES, S. BRAINARD'S SOME:

GENTS:—I have carefully examined "Brainard's New Method for the 17anoforts," and am glad to be able to record my emitre approval of the work. I consider it superior to any work of the class now before the public. Having used Peters' and Richardson's Instructors for some time, I can freely say that Brainard's is more complete and progressive than either of them, and I shall use it exclusively in all my teaching.

Prof. WM. BENDER.

Musical Director Academy of Music, and Teacher of Plano, Violin, &c., &c.

CLEVELAND, O., Aug. 31, 1879.

MESARS, S. BRAINARD'S SONS:—I have carefully arasined Brainard's New Method for the Plano-forte, and can recommend it to teachers and students throughout the country as superior to any work of the kind published in this country. It deserves, and I have no doubt will meet with great success, WM. HEYDLER.

Director and Teacher of Plano-forte at Cleveland Conservatory of Music.

We aspecially request Music teachers to committee Brainard's New Method. It will save you much labor, and interest your pupils. Send for a specimen copy, which will be sent to teachers at reduced rate.

PRICE, - - THREE DOLLARS,

unt post-paid, to any address on receipt of price. Sold by most book and sie dealers.

A DECIDED SUCCESS. NEW EDITION JUST READY!

KIMBALL'S

REED ORGAN

BY HORACE E. KIMBALL.

(Author of Kimball's Organ Voluntaries.)

The most Complete, Thorough, Progressive and Practical Book of the kind that has ever been issued,

The following are a few of the testimostale to its merit already received from Teachers, Organ Manufacturers and the Press:

BOSTON, MASS., July 24, 1872.

BOSTON, MASS., July 24, 1872.

MESSES. BRAINARD:—I have carefully examined the "Kimball's New Method for the Reed Organ." and sin pleased to be shie to record my approbation of the work. In progressiveness, careful adaptation of exercises and pieces, and full and hacid explanations, together with stelling and pleasing selections for practice it seems to me to be amphatically what it claims, a long step in advance of any similar work.

I cordially recommend it to teachers and pupils, as a valuable and artistic sethod for acquiring a mantery of the instrument for which it is designed.

L. H. SOUTHARD, Miss. Doc.

Late Music Director, Peabody Institute, Balt. Present Conductor of Boston.

Jubilee Chorus, Chelsen Choral Society and others.

ANDOVER, MASS., July 95, 1872.

MESSES. S. BRANNARD'S SOME:—
GENTS:—I am most decidedly pleased with what I have seen of "Kimball's 'New Method for the Read Organ." The selections are all of a high order, and from the works of the Masters of the Art, progressively arranged, relieving the teacher from the work of selecting music at the music ators for his work, at a great saving of time and patience to himself, and expense to his pupils.

Yours truly,

Conductor of Angular Choral Union, and Superintendant of Music in the Pullic Schools of Lawrence and Andover, Mass.

BOSTON, June 16, 1878;

MESSES. S. BRAIRARD'S SONS:—
GENTLEMEN:—We have examined with much pleasure the new Cabinet Organ Method by Mr. Elimball, which you have recently published. So far as we have the shifty to judge, it is most salminably adapted to the requirements both of the student and the anabetit, and we can with cordiality commend it to our friends.

Very truly yours.

MASON & HAMLIN ORGAN CO.

NEW YORK, June 14, 1872.

MESSES, S. BRAIMARD'S SOMS:

CENTLEMEN:—We hall with pleasure the issue of a method for the Reed Organ so thorough and comprehensive, yet so concise, as that of Mr Kinzball, a copy of which you have kindly such as. We have only admiration to express for the careful manuteness of its directions, for the clear and Judicious arrangement of its matter, and for the leandsome and attractive shape in which you have placed it before the public.

Respectually.

E. P. NEEDHAM & SON.

MEASRA. S. BRAINABD'S SONS:—

GENTLEMEN.—The copy of "Kimball's New Method for the Reed Organ," is received. After a thorough and careful examination of the work, I candidly say that I am not acquainted with any work of its class that approaches it, both for pupil and teacher. The selections site judiciously arranged and selected with unquestionable taste. It will fill a fixed that has long been felt, and is the only work I have over seen which deserves the bases of an "Organ Method." J shall recommend it "every time."

Agent in charge Geo, Woods & Co. 's Warerooms, Boston, Mass.
